---

Good morning Desiree,

Attached are the data summaries and a power point summarizing the events per the request made in the February 9 NOV. You had granted CHS an extension through March 15 for the January 2016-September 2016 data. We are struggling to retrieve that data due to the entire plant operations program having been replaced in July. We would like to discuss that issue with you more at today's meeting. I will have printed copies of the event summaries available and the ability to put present these documents on the flat screen in the conference room for our meeting today at 9 am.

Scott Duncan, Jeremy MacClure, Eric Colvin (corporate EHS), and Tom Grafft (ISG consulting) will be participating in the meeting with the intent to better understand the concerns that you have related to the CHS operation after reviewing the changes we have made so that we can continue reviewing opportunities for system improvements.

**Chris Oehler**
